Sink Your Teeth Into...

Joe Gilligan 3rd

They surely will taste so sweet, mmm...good!! Peanut Butter Cup, M&M Candies, Oatmeal Raisin, Chocolate Chunk, Chocolate Chunk Pecan, White Chunk Macadamia Nut, Snickerdoodle, Peanut Butter and the best and newest flavor Double Chocolate Cheery are the kinds of cookie dough available for you to buy. They will be so

good, and that's a guarantee. I will most certainly wish I had some more of those cookies.

Students in Comanche Elementary have been extremely busy selling cookie dough for the Varsity Gold Fundraiser, a company that helps schools to make money to use for projects that will benefit students. Hopefully, our school will be able to buy some new playground equipment. Prizes will also be given to students who sell at least

one box of dough. If you sell over \$200.00 worth of dough, you will like riding in a stylish limo all the way to lunch. Now that really sounds cool. I sure would like to do that.

The dough is only fifteen dollars per box for 48 cookies. It only takes 15 minutes to bake them. They have zero trans fat. The cookie dough is made from Chippery cookie dough. You can buy several boxes because you can put them in the freezer for future use. You can put them in the oven straight from the freezer.

Our school will appreciate the community's support. And we will have fun getting out and selling the dough to get our "dough." (You know what that means...money, honey!)

Smile for the Camera!

Jasmine Suniga 3rd

On Friday, March 6th we all

took pictures! Sonria! Ya llega el Día de la Foto de la Clase! Individual pictures were taken as well as the entire class pictures.

We wore our best clothes; we smiled BIG (like the camera guy said) and hoped that these would be the best pictures ever.

While we were in line, we were kind of loud but when we got our pictures taken we were quiet and still because we wanted our pictures to be perfect.

When we took our class picture, I think my teacher looked wonderful and had a beautiful smile.

March Knowledge

Billy Scheller 3rd

Mrs. Kasberg's Kindergarten class is learning about Texas because in March we celebrate Texas Independence Day. March is the month that spring begins; which makes it a good time to study about farms and things that

grow on a farm.

In March, Easter will also be thought about. It is a good time to try to hatch eggs too. So, Mrs. Kasberg's class is going to incubate some eggs and hope they will get to see the little chickens hatch.

In addition, at the end of March these students will be studying how plants grow. They will be planting their own plant in a cup in soil and watching it grow. They will learn that it takes water, soil, and sunlight, to make a plant grow.

The kindergarten kids will be really smart when they learn all of this.

Oh No It's a Test

Camron Creek 3rd

That's what the first and second graders must think. They are doing the ITBS test. It is a first and second grade version of the TAKS test. The test is used to determine how much these kids have learned by this time of the school year.

The first grade and second grade teachers and students [ALL of them] are doing this. It is a requirement that these students take these tests. It is an individual test so it takes the teachers a full week to finish the administration of the test.
