

**Magnificent
Minds
Mikayla D.**

I asked the First and Second graders some questions and here is their magnificent answers.

Alex S. 1st

I'd rather have x-ray eyes because I could see through anything. That would be cool because I could spy on people.

Enna C. 1st

I'd rather be a snowflake instead of a raindrop, because if I were a snowflake I could float all around and if kids come to play they might try to catch me and it would be like if I were playing chase with them.

Caroline W. 1st

If I were snowflake rather than rain I would drop and it wouldn't hurt. That's why I would like to be a snowflake best. I would be pretty and cute and I would see my friends, but they wouldn't see me. That is why I want to be a snowflake.

Hayden T. 1st

If I were a snowflake rather than a raindrop, I would love to be a snowflake because I love snow. I could throw LOTS of snowballs. Children like to throw snowballs. I also think snowflakes are prettier. So for me, I'd rather be a snowflake.

Ian S. 1st

If I had X-ray eyes I would use them to see through things. That would be cool! I would use

them a lot. They would help me play hide and seek. My friends will wonder why it's so easy for me to find them!

Isaac M. 1st

I would like to have x-ray eyes because I could see holes in the grass when I am walking my dog. And when I am riding my horse, I could see what is inside the rocks and the sticks along the way.

John W. 1st

I would rather be a snowflake because people might eat me for supper or dinner. I might taste good or bad. I would be pretty. If my friends got swallowed, I would be glad. If I got swallowed my family would be sad. I would be in snowflake heaven.

The Street would good with all those rows of ice-cream cones.

Dillon C. 2nd

I would rather be a banana split than an ice cream cone because I would be delicious. And I would be very good. I would like to eat my self. I would be gone before you could say, Eiffel tower.

But if I ate my self where would I be. I would not be in my stomach. I would eat my stomach because I would be a banana split.

Jesus H. 2nd

What if I had x-ray vision? I would use it in franc on the Eiffel tower for good reasons. I would detect bugs and be a doctor and see bones too. I would save people with my x-

ray vision.

Anyone who comes to the Eiffel tower will get well because of my x-ray vision.

Karen D. 2nd

I would like to be an ice cream cone because I like ice cream. I like ice cream because it is so sweet and good. The ice cream is so delicious.

I like chocolate the best so I want to be a chocolate ice cream.

Kaylee P. 2nd

I would rather be a banana split than an ice cream cone because ice cream cones hurt my tongue.

Banana splits are my favorite things in the whole world. I wish that the stores all over would have banana splits only. Boy that would be great.

Oh no! I'm being eaten!!!!

Kelli P. 2nd

Should we have school all the time? No, because we should get off on holidays like Valentines Day and Martin Luther King JR day. I wish every time there was rain or snow we wouldn't go to school.

I wish my school were like that! I would be happy!

Mireya L. 2nd

I would rather be a pillow than a blanket because a blanket is not so great.

A blanket some times gets stepped on. I know that a pillow gets stepped on too but I would rather be a pillow still.

A blanket still is better for some of the people but I do not care what other people say I just rather be a pillow.

Morgan H. 2nd

If I had X-ray eyes I would perform a world record! It would be a performance about one person just creeping around in somebody's stomach. I would perform an eyeball contest. I would be a doctor too! I would look at people's bones. If they collapsed, I would know. It would be so cool!

But remember that if you want your bones checked, you need to remember that I need that MONEY...plus tax.

Zane E. 2nd

If I had x-ray eyes I would look at peoples bones to make sure their bones were in place. It would be cool. I would work at a hospital.

The hospital would not need an x-ray machine because they would have me instead.

Madison H. 2nd

I would like to have school all the time because everyone could learn, so much more. It would be nice to cancel recess and P.E. too. P.E. and recess is nice but if wes stayed inside all day we would know more then we needed to know.

Everyone would get used to it and after a while they would like it too. I wish there were not recesses and P.E. around the world. and kids could eat lunch in the classroom while they learn. Some kids would be mad and some kids would be happy. And kids would have to wear uniforms and we would have no fun, just learning.

Brenna W. 2nd

I know alot about horses I would like to share with you.

#1. People used to think that horses with blue eyes were crazy.

#2. People thought that paint horses were crazy.

#3. Most horses are very smart.

#4. Horses respond to kindness.

#5. They must always make the first move.
