**Facts about Valentines Day**

Maritza Lopez 3<sup>rd</sup>

The first legend, perhaps the best known, started in Rome, when the Emperor Claudius 2 was involved in many bloody, unpopular campaigns. "Claudius the Cruel" as he was called, was having a difficult time getting soldiers to join his military leagues. He believed that the reason was that Roman men didn't want to leave their precious loves and their whole family. So he decided to cancel all marriages and engagements in Rome!

A man named Saint Valentine, a priest in Rome in 269 A.D., together with his friend Saint Marius, defied Claudius and started to perform the marriages of the youngsters in secret. Saint Valentine was sentenced to be beaten to death and to have his head cut off.

While he was in prison, it is believed that he fell in love with a young girl that may

have been the jailors daughter, who had visited him during his confinement. Before his death on the 14<sup>th</sup> of February he wrote a letter to her that said "From your Valentine." In 469 A.D. Pope G. set aside February 14 to honor St. Valentine.

**Andean Condor Facts**  
Jazzy Matlock 4<sup>th</sup>

Andean condors are massive birds, among the largest in the world that are able to fly. Because they are so heavy (up to 33 pounds) even their enormous 10-foot wingspan needs some help to keep them aloft. For that reason, these birds prefer to live in windy areas where they can glide on air currents with little effort. Andean condors are found in mountainous regions, as their name suggests, but also live near coasts replete with oceans breezes and even deserts that feature strong thermal air currents. They are also carnivores and are endangered.

So if you want to shoot this magnificent creature, think AGAIN!!!!
