

### Volcanoes Daisy L. 5th

I interviewed Mrs. Moerbe about the volcanoes. She said that Dixie Rogers who taught before Mrs. Moerbe. Gave her the idea about the volcanoes. Mrs. Moerbe told me that they erupted the volcanoes between the annex and

the primary building. Mrs. Moerbe said that they did the volcanoes because it's to represent the natural world using models. She also did them because they're in her T.E.K.S. In Mrs. Moerbe's classes every one in forth grade did one. She said that they all had fun!

### Come Read With Me Karyna D. 3<sup>rd</sup> Grade

On Monday 11, 2004 I interview Mr. Stahnke because I want to now about the Come Read With Me. He said that he wants to get kids invaled with books. Some in the library some in the classes. He is going to be there so be careful or else. It is going to be at five a clock to seven a clock. It is a reading program. All the students are going. It will help the kids by enjoy a book Parents bring your kids. So they can enjoy a book!!!!

### The Pow Wow Ale C. I 3<sup>rd</sup>

The Pow Wow was so cool. Even though I wasn't there I know it was very fun. My dad, brother, and sister went to the Pow Wow. They had fun and my sister got a balloon, coloring book, and a pencil. She went on the big air slide. At the Pow Wow there was a mule jump. It's where a mule jumps over a string or stick that's about 60 inches tall! The Pow Wow was at the City Park on Saturday and Sunday on September 25 and 26. The Pow Wow is a very fun place to go.

### Pyramids at the Omni

Bryson B. 4th

We went to the Fort Worth Museum of Science and History. We saw lots of cool stuff. We saw the inventions at play zone, the hands on science.

In the afternoon we went to the Omni. We saw *Mysteries of Egypt*. We journeyed across miles and millennias with narrator Omar Sharif. He told us about the pyramids of Egypt. We saw how hard it was to build the pyramids. They did it all by hand. They moved every single rock one by one. But in spite of this, every stone fit perfectly and every pyramid was perfect in its construction.

In this screen film we also learned how King Tut's tomb was discovered. It showed us the sacred tomb and how big it was and how it had been hidden for s o many years.

We also learned about mummies and how that was done. That was really interesting.

We saw the pyramids of Giza and the River Nile.

This was really an interesting and informing giant screen film.

### Mrs. Evans Steven B. 3<sup>rd</sup>

Mrs. Evans best year was her first year. Her second grade teacher was Mrs. Smith. She has been teaching for 35 years. Her favorite field trip was going to Austin to see the capital. She likes to teach because to see children learn about new things and working with children. She got to go on trips with the FHA. Her funniest thing that happened to her was when she was jumping rope she fell down in front of her class.

### Discovery Lab Hannah T. 4th

In the Fort Worth Museum Discovery Lab we got to discover the reflection of light.

The docent gave us a film canister and a piece of tape. We put the piece of tape on the film canister. Then, we sat down on

the floor. The docent plugged in a blue light and a red light. We looked through the piece of tape. We saw a red and blue dot. When we looked at the light bulbs the red was on top, but when we looked at the dot it was on the bottom. That's reflection! We also got to go and do our own inventions! I would love to go back again!

### Inventions at Play Griffin Y. 4<sup>th</sup>

This exhibit is from the Smithsonian Museum. It has lot of information from famous inventors like Alexander Graham Bell (telephone.) Aren't you glad he was alive! There is also a game called "tinker ball". You have kitchen items, and you try to use the items to get the ball into a hole.

You can also listen to inventors' stories. There is this one inventor who invented robotic ants! His name was James Mclurkin. Now that could really teach you something! You can also "draw" your voice. It's where you speak into a microphone and it somehow draws your voice with a laser. The website is [www.si.edu/lemelson/centerpeices/iap/playhouse-main.html](http://www.si.edu/lemelson/centerpeices/iap/playhouse-main.html)

Carroll in grade boys was Payton Nance in 1<sup>st</sup> grade, K-1<sup>st</sup> grade girls was Enna 1<sup>st</sup> grade, 2 -3<sup>rd</sup> grade boys was Caisson Monteith in 3<sup>rd</sup> grade, 2-3<sup>rd</sup> girl was Amanda Sanchez in 3<sup>rd</sup> grade, 4-5<sup>th</sup> boy was Jaylon Roberts in 4<sup>th</sup> grade, 4 -5<sup>th</sup> grade girls was Nina Bradshaw in 5<sup>th</sup>. Congratulations to all of you who ran in the Fun Run!

### Skating 101 Yassiel I. 5<sup>th</sup> & Monica M. 5<sup>th</sup>

On September 23, 2004 we skated in the gym. We had to pay \$8.00 if we wanted to skate, and if we didn't participate in this event we had to go outside and do exercises. The equipment were skates, kneepads, elbow pads wrist guards, and a helmet. We also had to bring a bandanna. We had to put the equipment on by our self. When we were finished putting on our equipment we started to skate.

When every body was finished putting on their equipment we played games. On every wall was a number 1-4. Mrs. Ferrell or Mrs. Lacy rolled a dice and if they rolled a 3 then everybody at that corner had to skate to the middle. The last people standing got to fast skate. We also got to skate backwards and we got to make a train until we fell down. We had a GREAT time!!!!

### Fun Run Monica M. 5<sup>th</sup>

On October 12, 2004 we had the Fun Run. Anyone who wanted to run could but they had to pay \$1 to run. The grades were K-5<sup>th</sup> grade. 179 kids ran in the Fun Run that is the record of kids who ran in the Fun Run from all the years they have been doing this event.

Parents could come to watch. The K-1<sup>st</sup> grade ran together, 2<sup>nd</sup>-3<sup>rd</sup> grade ran together, and 4<sup>th</sup>-5<sup>th</sup> grade ran together. All the groups ran different distances. Here are the 1<sup>st</sup> place in every group K-1<sup>st</sup>

The 5th Grade G/T Class

### Mrs. Cobb Clinton S. 3<sup>rd</sup>

Mrs. Cobb is telling scary stories to the third grade class after the moments of silence in Social Studies. Mrs. Cobb is reading scary stories so we can have a little Halloween every day. Mrs. Cobb is reading scary stories until Halloween.

### Book Fair Sean P. 5th

The Comanche Elementary School had a book fair Monday October 18 to Thursday October 21. The times were from 7:30 to 8:00 in the morning and 3:30 to 4:00 P.M. In the second grade hall. They had Series of Unfortunate Events and more!
